Boise Gastroenterology Associates & Idaho Endoscopy Center

January 2011

Dear Valued Patient of the Digestive Health Clinic:

We as providers are happy to share some exciting news with you. We are about to embark upon the final phase of our new electronic medical record (EMR) system. Several months ago we initiated the scheduling portion of this system and this has proceeded smoothly. On February 1, we will "Go Live" and will begin electronic documentation of patient encounters.

You will notice a few changes. Initially, there may be additional time required at check-in, during your office visit or procedure, and at check-out. As we move forward with this new and exciting system, our anticipation is that any delays will be temporary and minimal. New benefits of this system include enhanced coordination of care with your other providers, more rapid documentation and communication of your results, and more efficient delivery of your care. We will be photographing you for your electronic chart so we will have a "face to the name." We believe that this too will allow us to continue to provide the excellent care that you have become accustomed to.

If you have any questions or concerns during this process, please do not hesitate to ask your provider or the management as we aim to make this transition as seamless as possible.

Sincerely,

Board Certified in Gastroenterology

Samuel S. Gibson, M.D. • Ike D. Tanabe, M.D. • Nic R. Cordum, M.D.

Robb F. Gibson, M.D. • Stephen M. Schutz, M.D. • Mark A. Mallory, M.D. • Christopher J. Goulet, M.D.

Family Nurse Practitioner
